KEY QUALIFICATIONS

Henry Kellam has 25+ years of experience in strengthening decentralization and local governance in developing countries. He has expertise in promoting representative, responsive and effective local governance. He has worked in Africa, the Middle-East, South East Asia, South West Asia, Eastern Europe and the South Pacific. His areas of expertise include:

- Decentralized public sector reform to support greater local autonomy and improve the delivery of public services.
- Capacity building of local authorities in the making and implementation of public policy, revenue base development, and citizen participation.
- Citizen participation and training in local governance, strategic planning and integrated development processes.
- Comprehensive and up to date knowledge in gender development issues and in formulation of gender strategies.
- Civil society participation for increased government accountability and transparency.
- Support for central or local governments to strengthen and systemize Public Financial Management (PFM) systems and build capacities for greater sustainability and Local Economic Development initiatives.
- Sector-wide multi-disciplinary project management and human resource development.
- Design and implementation of development and resettlement programs targeting vulnerable (especially women/children), marginalized or affected populations for poverty alleviation initiatives
- Participatory approaches for water, sanitation and health programs.
- Participatory approaches and programming to plan and manage land, water, sanitation and conservation-based interventions.
- Assistance coordination and aid alignment with local priorities.
- Developing monitoring and evaluation (M&E) and Operation and Maintenance (O&M) systems.
- Urban land use, master planning and spatial (infrastructure) planning approaches within a broader development framework.
